System Requirements:

Pristine Legends is recommended for the latest computers and the most graphics-ready games. If you are playing on an older computer, the game may have some performance issues. If you are using an operating system with a low-resolution display (800x600 or less), the game may display incorrectly. You can up-scale the game to your display resolution, or play it with a lower resolution and the graphical settings lowered. Mac OS is not supported at this time. Game play is based on the MMORPG type, where all players can play
