## TeamCity First Start

Please review the settings below before proceeding with the first TeamCity start.

TeamCity server stores server configuration settings, project definitions, build results and caches on disk in a **Data Directory**.

Data Directory location on the TeamCity server machine:

If you already worked with TeamCity on this machine you can specify existing Data Directory.

[Proceed](#)

TeamCity 2018.1.1 (build 58406)
